

This policy sets out the obligations of Managers and their staff to ensure the health and safety of persons from the effects of smoking at work.

The following provisions shall apply within Delta Electricity premises to ensure the health of persons is not affected from passive smoking or that plant safety is not placed at risk.

- Smoking is prohibited in areas covered by legislative requirements, e.g. lifts, Dangerous Goods Depots, food preparation areas and meal rooms.
- Smoking is prohibited in all buildings, corridors, vehicles and mobile plant equipment.

This policy shall be made known to all visitors and contractors.

Any employee of Delta Electricity wishing to quit smoking will be given every assistance to achieve this objective.

Chief Executive
