Environmental Licences and Monitoring

Environmental Licences

All Delta Electricity facilities must comply with the environmental protection legislation in NSW. Each power station holds licences under the Protection on the Environment Operations Act 1997. Delta's licence specifies the terms and conditions under which the site can operate detailing the limits on emissions deemed polluting to the atmosphere and the lakes for all designated discharge points.

The licence also outlines a monitoring regime for specific substances at each licence monitoring point.

It also deems excessive noise and odour as pollutants, and Delta is required to keep a register of any complaint relating to noise, dust, odour

or discharges into water.

The Protection of the Environment Operations Act 1997 was amended in 2012 and requires Delta to publish its monitoring data and Pollution Incident Response Management Plan (PIRMP).

The Vales Point Power Station Environmental Licence Protection Licence No 761 identifies what Delta Electricity is required to monitor and the levels tied to those emissions. Delta also has a Pollution Incident Response Management Plan for Vales Point.

Vales Point Licence Points Location

Vales Point Units of Measurement

Vales Point Power Station Monitoring Data

201910 - Vales Point October 2019 Monthly

201909 - Vales Point September 2019 Monthly

201908 - Vales Point August 2019 Monthly

Vales Point July 2019 Monthly

201906 - Vales Point June 2019 Monthly

201905 - Vales Point May 2019 Monthly

201904 - Vales Point April 2019 Monthly

201903 - Vales Point March 2019 Monthly

201902 - Vales Point February 2019 Monthly

201901 - Vales Point January 2019 Monthly
