Quotation

DELTA ELECTRICITY

SPECIFICATION AND QUOTATION NO. C1196/19

VALES POINT POWER STATION

ROUTINE INSPECTION AND MAINTENANCE OF LIFTING EQUIPMENT

SUMMARY OF SPECIFICATION

The following summary indicates the general nature of the Works for which The Principal desires Tenders to be submitted and is issued to enable Contractors to make an assessment whether the Specification documents should be obtained from The Principal for the purpose of submitting a tender response. It does not form part of the Specification and should not be included as part of the Tenderer's offer.

PURPOSE OF WORK

The Contractor is responsible for the Rigging Equipment Inspection works as and when required at Vales Point Power Station for a period of two (2) years.

LOCATION OF SITE

The Vales Point Power Station is located on the southern shore of Lake Macquarie, approximately 130 km north of Sydney, New South Wales, and approximately 3 km off the Pacific Highway North of Doyalson.

EXTENT OF WORK

The works includes but is not limited to the following:

- a) Visual inspections of rigging and lifting equipment on site per the Delta lifting equipment register attached to tender documents and any other lifting equipment not captured in the register.
- b) Inspections to be completed as per the applicable Australian Standards including, but not limited to:
