

Default Offer Prices for Large Customers

(Effective 1 July 2022)

This fact sheet sets out Delta Electricity's, ABN 75 162 696 335, default offer pricing for large customers in New South Wales, Australian Capital Territory, Victoria, Queensland, South Australia and Tasmania.

These prices apply to large customers where Delta Electricity is the FRMP but where no contract has been negotiated.

Delta Electricity Default Offer Prices

State or Territory	Applicable Charges	Unit	Excluding GST	Including GST
ACT	Energy Usage	c/kWh	33.00	36.30
NSW	Energy Usage	c/kWh	33.00	36.30
QLD	Energy Usage	c/kWh	32.70	35.97
SA	Energy Usage	c/kWh	24.20	26.62
TAS	Energy Usage	c/kWh	18.50	20.35
VIC	Energy Usage	c/kWh	20.30	22.33
ALL	Retail Service Fee (per NMI)	\$/month	20.00	22.00

All Market, Network, and Metering Charges will be passed through at cost.

LGC, STC, ESC and VEEC Charges will be passed through at cost.

For Customers in the Australian Capital Territory, Energy Efficiency Improvement Scheme (EEIS) charges will be passed through at cost.

For Customers in South Australian, Retailer Energy Productivity Scheme (REPS) these will be passed through at cost.

kWh stands for kilowatt hour and is a unit of measure for your electricity bill.

We may vary the prices and fees applicable to customers under this default offer by written notice to your email address as previously notified to us or the street address of your premises.
