Environmental Licences and Monitoring

Environmental Licences

All Delta Electricity facilities must comply with the environmental protection legislation in NSW. Each power station holds licences under the Protection on the Environment Operations Act 1997. Delta's licence specifies the terms and conditions under which the site can operate detailing the limits on emissions deemed polluting to the atmosphere and the lakes for all designated discharge points.

The licence also outlines a monitoring regime for specific substances at each licence monitoring point.

It also deems excessive noise and odour as pollutants, and Delta is

required to keep a register of any complaint relating to noise, dust, odour or discharges into water.

The Protection of the Environment Operations Act 1997 was amended in 2012 and requires Delta to publish its monitoring data and Pollution Incident Response Management Plan (PIRMP).

The Vales Point Power Station Environmental Licence Protection Licence No 761 identifies what Delta Electricity is required to monitor and the levels tied to those emissions. Delta also has a Pollution Incident Response Management Plan for Vales Point.

Vales Point Licence Points Location

Vales Point Units of Measurement

Vales Point Power Station Monitoring Data

201502 Vales Point February 2015 Monthly

201501 Vales Point January 2015 Monthly

201412 Vales Point December 2014 Monthly

201411 Vales Point November 2014 Monthly

201410 Vales Point October 2014 Monthly

201409 Vales Point September 2014 Monthly

201408 Vales Point August 2014 Monthly

201407 Vales Point July 2014 Monthly

201406 Vales Point June 2014 Monthly

201405 Vales Point May 2014 Monthly
