DELTA ELECTRICITY

SPECIFICATION AND QUOTATION NO.C1246/20

VALES POINT POWER STATION

STACK EMISSIONS TESTING

SUMMARY OF SPECIFICATION

The following summary indicates the general nature of the Works for which The Principal desires Tenders to be submitted and is issued to enable Contractors to make an assessment whether the Specification documents should be obtained from the Principal for the purpose of submitting a tender response. It does not form part of the Specification and should not be included as part of the Tenderer's offer.

PURPOSE OF WORK

The works required under this contract will cover Stack Emissions Testing at Vales Point Power Station in accordance with the Principals requirements and Environment Protection Licence 761 for a period of two (2) years.

The Principal has an obligation that its Contractors must undertake continuous improvement leading to efficiencies that may be reflected in a Contract extension. Upon successful Practical Completion of the works within this agreement and a review of the Contractor's performance, a further agreement may be negotiated, at the discretion of the Principal.
